Monitors

Total of (6) monitors with a minimum of (4) independent mixes (6 mixes preferred). Layout as indicated on stage plot.

Backline

Pigs on the Wing will provide full backline and all instruments. Please provide (2) dedicated 20A circuits for stage power.

FOH Needs

Please provide FOH engineer (and monitor engineer, if applicable).

We do not travel with any FOH or monitor equipment other than microphones as specified above - please arrange in advance if any additional PA equipment will be required.

Lighting

Please see attached lighting and projection plot for full artist provided lighting and projection set up.

- Power requirements: min of (2) dedicated 20A circuits for on stage lighting equipment and power in the vicinity of projector location.

- We request at minimum basic stage wash lighting (i.e. PAR array) with dimmer controls.

- We use a water based haze generator during the show.

- Artist will provide LD - house LD requested additionally if available

- DMX snake from stage to FOH lighting console position requested if possible
