XLR(F) inputs from snake

Pigs on the Wing - Tech Rider

Backline

Pigs on the Wing will provide full backline and all instruments.

FOH Needs

Pigs on the Wing typically tours with our FOH engineer. Please provide house tech to assist.

We carry all of our own mics (including drum mics), our x32 console, our DL32 stage box and ethernet cabling.

Please provide full PA (mains, subs, floor wedges), mic stands, and all cabling.

Monitors mixed from FOH.

Lighting & Projection

Tour carried lighting plot / details available on request.

We tour with our LD and projection techs

We use a water based haze generator during the show - please ensure there is no conflict with building smoke alarm system or manual override needed.

We use class 3B laser effects during the show.

(2) DMX snakes from FOH to stage requested if possible.

Power

Pigs on the Wing requires:

- (2) dedicated 20A circuits for backline stage/instrument power

- (3) dedicated 20A circuits (4 preferred) for lighting power

Total of (5) dedicated 20A circuits at a minimum

Parking

Please provide parking for one full size van with trailer (~35') and one additional full size van (~20')

Questions or Concerns? Substitutions or Exceptions?

Please contact Jason Baker at 503-753-4215 or jason@pig-wing.com
